
Choose for site management via the interactive dashboard
Now you've to choose for "Site Management" in the control panel.

Click on site management

[Click here to remove a complete category, including all articles related to the category](#)

[Click here to remove an article , including all related articles](#)

[Click here to remove a related article ,](#)

Here you can choose what article you want to remove. The options are:

Remove a complete category (removes everything inside the category). Remove an article (this will also remove every sub article that you published under this article. Remove a related article (this will only remove a sub article, that's nested under a main article. We will show you how you can remove a related article, the other options works the same way.
